Need to include this for the Houston Ship Channel collision.

MORGAN'S POINT COLLISION, MORGAN'S POINT, TEXAS : On March 9, EPA received notification from Sector Houston-Galveston about a collision in the upper Houston Ship Channel (Morgan Point area) that occurred at 1247 CT. The 600 ft M/V Carla Maersk was loaded with 216,000 barrels of MTBE and reported three cargo tanks potentially breeched and leaking (unknown quantity released). The 623 ft M/V Conti Peridot is a bulk carrier (steel cargo), damage unknown but no discharge. No injuries reported. Fog is impacting the ability to conduct overflight and USCG will arrange once weather permits. The incident is in USCG jurisdiction. START has been activated to provide air monitoring.
